the Rolling Stones® CABLE

The „World’s Greatest Rock n’ Roll Band of All Time“, The Rolling Stones and Bravado cooperate with Adam Hall and present a strictly limited cable line on the market.

The most famous Rock n’ Roll Band of All Time, unanimously agreed across the generations, the Rolling Stones® was formed in 1962. Whether in the studio or live on stage their songs, tours and performances are legendary.

For Adam Hall® these outstanding qualities represent an excellent opportunity to design a joint line of cables. It bears not only the band’s name, but also conveys the high standard demanded by the Band that is perfectly suited to the needs of every musician.

In the development of the cable, in addition to an undistorted sound transmission, the longevity was also a key objective.

The flexible yet robust Rolling Stones guitar and microphone cables are double shielded with copper spiral shield and aluminium; they have a very low capacitance and are assembled to perfection.

In cooperation with NEUTRIK®, the complete series features specially gilded Rolling Stones XLR and 6.35 mm jacks and also includes among other things, an exclusive version of the silentPLUG®.

Shop POS Display Sets

The Shop POS Displays set the stage perfectly for our Rolling Stones® cables.

We offer the following Sets:

- 1. K6TRSSTAND & K6TRSCOUNTMIX**
Big Display with mixed cable types +
Counter display with mixed cable types
- 2. K6TRSSTAND & K6TRSCOUNTMIC**
Big Display with mixed cable types +
Counter display with microphone cable types
- 3. K6TRSSTAND & K6TRSCOUNTGIT**
Big Display with mixed cable types +
Counter display with instrument cable types

Big display:

Capacity for 72 cables
(W x H x D): 500 x 2215 x 340 mm

Counter display:

Capacity for 12 cables
(W x H x D): 400 x 610 x 300 mm

Features Instrument Cables

- ✓ low capacitance
- ✓ low microphony
- ✓ double shielded
- ✓ best conductor insulation by voluminous dielectric
- ✓ hand soldered connectors
